

SELF-ADHESIVE ALUMINIUM FOIL TAPE

Type	Single Sided Adhesive (Double – sided alum. Foil)
Size	1 inch, 2 inch, >4 inch, 4 inch, 3 inch, 1/2 inch
Brand	EURO
Usage	Insulation
Colour	Silver
Thickness	0.7 mm

The **Aluminium Foil Tapes** are commonly known as foil tape. These tapes are applicable in electrical, HVAC and construction & marine and offshore industries. The tape is specially used where moisture and chemical resistance, thermal conductivity, flame resistance, heat and light reflectance is required. These tapes can withstand different weather conditions.

Types Available:

Keeping in mind the various industrial applications, we manufacture different types of aluminium tapes for our clients as:

- Acrylic adhesive aluminium tapes
- Line-less aluminium tapes
- Polymer coated aluminium tapes
- Flame resistant aluminium glass tape

Advantages:

- Resistant to chemicals, heat and weather
- High tack cold weather acrylic adhesive
- Excellent adherence even in low temperature
- Blocks out moisture and odours
- Excellent insulation property
- Water and UV resistant
